On December 14, 2015, the Electricity Affordability Committee ("EAC"), created by the General Assembly to examine energy supplier choice in Delaware, petitioned the Commission to review ways of enhancing customer choice in Delaware: (1) adopt a Purchase of Receivables program; (2) include third-party supplier information on Delmarva Power & Light Company's bills; (3) allow new and relocating customers to receive supply from their preferred supplier immediately; (4) allow customers to enroll with a third-party supplier without requiring them to provide their Delmarva Power identifying information; (5) re-examining Standard Offer Supply procurement; (6) finalizing Commission regulations governing third-party electric suppliers; and (7) establish periodic monitoring of the status of

customer choice. The EAC requested the Commission to implement recommendations to enhance customer choice, reduce energy supply costs, and increase customer awareness and education in Delaware regarding these issues.

The Commission opened this docket on December 23, 2015, and since then has conducted publicly-noticed workshops. Some of the issues identified above have been resolved or addressed in other proceedings.

At the evidentiary hearing, the parties will formally introduce evidence supporting their positions on each of the remaining contested issues. The Commission will make its decision on this matter on the basis of the evidence introduced into the record at the evidentiary hearing. If a settlement agreement is reached, the evidentiary hearing will address whether the proposed Settlement is in the public interest.
